Providing **free** emergency vet
services to our most precious
wildlife.

About us

We are a not for profit team of dedicated professionals passionate about saving the lives of injured wildlife.

Adelaide Koala & Wildlife Hospital provides free emergency vet services to injured wildlife at our hospital in Plympton. We take in injured or orphaned wildlife with the aim of rehabilitation and release. We also participate in a wide variety of educational programs for students, carers, veterinary students and the public.

The Adelaide Koala & Wildlife Hospital relies on the passionate professionals and volunteers who provide their services free of charge. The support and generosity of the community is critical to the ongoing work of the hospital in caring for our injured and orphaned wildlife.

Our Services

Rescue, Rehabilitation & Release

Adelaide Koala & Wildlife Hospital's main goal is to treat, rehabilitate and release native wildlife that may have become injured or orphaned from their natural environment.

Where appropriate, we may also need to arrange long term care for animals which can't be released back into the wild.

Education

We believe that knowledge and understanding is an important factor to securing the future of our wildlife. The hospital is also involved with education and awareness programs for school students, carers, veterinary students and the general public.

Research & Development

Sustainability is key. Aside from saving the lives of our precious wildlife when they are in need, Adelaide Koala & Wildlife Hospital supports research into the medical treatments and key health factors for Koalas to help ensure their long term survival.

How you can help

All support and contributions are greatly appreciated and there are many ways you can help.

Donate or Fund Raise

Whether you want to make a donation yourself, or raise funds from your organisation, Adelaide Koala & Wildlife Hospital needs your financial support to ensure we can provide life saving care to our most precious and vulnerable wildlife.

To make a donation, contact the hospital or complete the form opposite.

Sponsor a Patient

Every patient has a story and every one is special. If there is a particular case you would like to support, please phone the hospital or complete the Adopt a Patient form on our website.

In-kind support

We are always in need of goods to help us save our wildlife. Everything from blankets and bedding to fresh gum leaves goes a long way to helping our wildlife. If you would like to donate some items, please contact the hospital.

Stop and save a life

Next time your travelling whether it be in the suburbs or open country roads, keep an eye out for our wildlife. If you come across an injured animal stop and help. Check pouches of deceased wildlife, try to safely capture and secure the animal in a dark well ventilated box, do not give them anything to eat or drink and phone the hospital immediately. If you are unable to stay with the animal, mark the area where it is located and advise the hospital.

Create a Wildlife Friendly Home

Always keep domestic pets restrained at night when our native wildlife is most active. If you notice your pet playing with something, always check what it is they have. Create a safe and secure wildlife friendly home and if you have a swimming pool, attach a strong rope to the fence and leave it dangling into the pool so that if a koala falls in, they can climb out.

Spread the word

Awareness is one of the most powerful tools available to help save our wildlife. Show your support and encourage others to do so by liking and sharing our Facebook page.

Dear Adelaide Koala & Wildlife Hospital,

I want to make a difference!

Please find below details of my donation.

Your name:

Your postal address:

Email:
